

# XI European Mountain Convention

## Cultural Heritage as an Engine for Creativity, Innovation and Socioeconomic Development for the Future of Mountain areas

Vatra Dornei, Romania  
25-26-27 September 2018

How can we turn an unreplaceable inheritance from the past into a game changer for our future?

This is the objective of the **XI European Mountain Convention on "Cultural Heritage as an Engine for Creativity, Innovation and Socioeconomic Development of Mountain areas"**.

With **one day of study visits and 2 days of conference**, this XI European Mountain Convention will help mountain people to better exploit all the added value of their cultural heritage and **turn it into an engine for the future development of their mountain areas**.

Come and:

-  Exchange with a wide range of mountain actors: researchers, policy-makers, officers of regions and development agencies, farmers, tourism actors, and practitioners from all over Europe
-  Obtain an overview of strategies and tools to better valorise cultural heritage in mountain areas
-  Actively participate in workshops and explore good practices
